

1000KG BAG LIFTER

FJA-19-215

This forklift attachment makes lifting 1000kg bags very easy as the operator does not have to leave his forklift to load and unload. It also enables extra lift height to get over hoppers or sides of trailers. A large hook easily visible to the driver makes it easy to guide the hook through the loops on the bag. The big bag lifter comes complete with the chain to secure the jib to the forklift and a pin to lock the boom into 1 of 5 different height extensions.

Specifications;

- Safe Working Load 1000kg
- Pocket Size 165 x 65mm
- Pocket Centres 250mm
- Load Centre 654mm
- Unit Weight 90kg
- Painted Finish
- Installation method – slip-on & chain to carriage
- Manufactured strictly in accordance with AS 2359.1
