

FBT-ST-1000 1000kg Forward Bin Tipper

Forward Bin Tippers have tipped millions of tonnes of product and produce over the years they have been used in industry. Customers use tipper to handle a widely diverse range of products efficiently and safely.

This unit has a fast but controlled hydraulic tipping action and its unique bin grab applies firm grip on bin when inverted. The Forward Bin Tipper has a 135° forward rotation which ensures complete emptying of the bin. Being suitable for a wide range of cubic bin sizes and types this robust attachment provides a quality, long life investment in any bin tipping situation. Attachment can be modified or altered to suit your specific bin type/size requirements.

SPECIFICATIONS:

- 1000kg SWL (1500kg available)
- Total width across tines: 760mm
- Fits standard forklift tines up to:
1070mm x 45m x 125mm
- Standard unit suits bins
1100mm-1200mm front to rear
- Lost load (on 1070mm tines): 300mm
- Net Weight: 155kg
- Horizontal centre of gravity: 600mm
- Vertical centre of gravity: 900mm
