

## DROP BOTTOM BINS

### 1,000KG

The heavy duty drop bottom bins are designed for the efficient storage and transfer of waste materials. This bin is emptied via a simple drop bottom base, allowing complete emptying of contents into a larger bin or dump truck. The base is closed by an automatic locking mechanism when bin is lowered to the ground.

#### Specifications;

- Drop bottom base allows fast and complete dumping of solid waste
- Heavy-duty 3mm reinforced plate to handle all waste products
- Easily transported by forklift or overhead crane
- Drop bottom base is released safely from drivers seat via a pull cord mechanism
- Shock absorbing system removes all impact from the forklift or crane during emptying
- Forklift and crane lugs fitted as standard
- Zinc or enamel paint finish
- Cast or Rubber wheels
- Fork pocket size 160mm x 65mm
- Fork Pocket Centres 684mm
- Safe Working Load 1000kg

Product Code	Working Load Limit (kg)	Capacity cu/m	Length (mm)	Width (mm)	Height (mm)	Fork Pocket Size (mm)	Fork Pocket Centres (mm)	Unit Weight (kg)
STDB-500	1000	0.5	1200	1025	745	160 x 65	684	200
STDB-800	1000	0.8	1200	1025	1045	160 x 65	684	225
STDB-1100	1000	1.1	1200	1025	1345	160 x 65	684	250

## BROOM SWEEPER

#### Features & Benefits;

- Suitable for heavy application
- Eight rows of polypropylene bristles
- Solid steel frame powder coated
- Proven to cut cleaning times by 90%
- Indoor and outdoor use
- Sweep's in any direction
- 1200mm & 1800mm widths
