

REEFER CONTAINER RAMP

HEAVY DUTY 8,000KG

This reefer container ramp (refrigerated container ramp) bridges into a reefer container from the ground level. The flaps mean that the container ramp doesn't have to be butted completely flush with the container. Heavy duty and built for the harshest conditions, with forklift pockets on three sides for ease of relocation.

Specifications;

- Rugged NZ made product
- Can be customised
- Heavy-duty boxing/reinforcement
- 8mm cheque plate steel top plate
- Painted finish
- Fork pockets can be accessed from 3 sides
- Complies to AS 3990

Product Code	SWL (kg)	Overall Length (mm)	Base Lengths (mm)	Flaps (mm)	Overall Width (mm)	Height (mm)

LOADER BUCKET

1,000KG

The forklift loader bucket is a slip-on attachment allowing quick connection to the forklift with the use of "quick connect" hydraulic couplings. The hydraulic operation allows for full backwards tilt making the bucket suitable for liquid products. This bucket is manufactured with a hardened steel wear edge and has a galvanised finish.

Specifications;

- Safe Working Load 1000kg
- Pocket Size 165 x 65mm
- Pocket Centres 750mm
- Capacity 0.50cu/m
- Bucket width 1200mm
- Unit weight 315kg
- Overall size 1920L x 1200W x 655H
- Manufactured strictly in accordance with AS 2359.1

Product Code	SWL (kg)	Capacity (cubic/meter)	Bucket Width (mm)	Pocket Size (mm)
