

WHEELIE BIN TIPPERS (SELF-TIP) SINGLE & DOUBLE 240L

These wheelie bin tippers are a great tool for emptying 240litre plastic bins. The bin is wheeled into the cradle attachment, so the wheels are nested below the wheel arch plate. The operator then secures the drum with the safety chains supplied. Tipping is simple and safe and the forklift operator does not need to leave their seat while doing so. Available for one or two 240L wheelie bins. Instruction manual supplied.

Specifications;

- 180degree rotation
- Pocket Size 160 x 65mm
- Pocket Centres 340mm
- Load Centre 1200mm
- Horizontal C of G 720mm
- Vertical C of G 90mm
- Zinc finish
- Manufactured strictly in accordance with AS 2359.1
