GOODS CAGES

UP TO 1,000KG

These goods cages are made for the transport of loose or palletized goods using either a forklift or crane. The full width gate allows 1200mm square pallets to be placed inside the cage if required. Crane lugs in the bottom corners allow the cage to be stacked – three high when empty, two high when full. These units are delivered flat packed to save on freight – allow up to 20 minutes assembly. Comes in zinc finish with an instruction manual and certification included.
