

## Hydraulic Wire Mesh Lifter FWMA-5000H

This FWMA-5000H Hydraulic Wire Mesh Lifter attachment adapts your forklift for the safe loading and unloading of bulky reinforcing mesh bundles by one operator, without the need to leave the forklift seat to attach chains or strops. Whether it be at your warehouse or construction site, this economical solution reduces risk of damage to your material and downtime during transfers.

Manufactured strictly in accordance with AS 2359.1
