

TECHNICAL DATA SHEET

BALKEN INOX STAINLESS STEEL PUSH TROLLEY

MODEL: MTS

FEATURES:

- Maximum protection against corrosive and high humidity environments.
- Suitable for cleanrooms and food-industry applications.
- All parts (except bearings) made from highly corrosion resistant 304(V2A) stainless steel. Bolts made from 2Cr13 stainless steel.
- Customisable by adjusting the spacers.
- Safety bars serve as fall, breaking & impact protection. Additionally equipped with tilting protection.
- Permanently lubricated, ball bearing mounted wheels allow for smooth traversing.
- Suitable for most I- and H-beam profiles.
- Complies with the Machinery Directive 2006/42/EC. Supplied with test certificate, CE declaration of conformity and operating instructions.
